PRESS RELEASE: FOR IMMEDIATE RELEASE

THE ANGEL & THE BROWN-EYED BOY

A FUTURE WORLD ONLY HEARTBEATS
FROM OUR OWN

CALIFORNIA - *The Angel & the Brown-eyed Boy* is Sandy Nathan's new science fiction/fantasy novel. Of the special genre of books and films that include *1984*, *A Brave New World*, *Brazil*, and The Prisoner Series, *The Angel* takes the reader to a dark future world that's not so different from our own. In the late 22nd century, people are continually watched, disappearing off the streets and from their homes. A shadowy but all-powerful government calls the shots; war rages while the authorities proclaim the Great Peace.

All is not bad in this fictional realm, for the angelic extraterrestrial, Eliana, appears on the streets on New York City on a mission to save her planet. As radiant and pure as the world around her is tarnished, Eliana must find the Golden Boy. He turns out to be Jeremy Edgerton, a tech genius in a world where technology is outlawed, a revolutionary, and the FBI's most wanted. They find themselves caught up in an explosive adventure when Jeremy decodes new transmissions and discovers that a nuclear holocaust will take place the next morning.

The themes of *The Angel* read like pure sci-fi, but author Sandy Nathan explains, "I'm a former economist. While the love story between Jeremy and Eliana enchants, the back-story—the hideous world around them—is the product of my economist's mind interacting with current events. We're in the worst economic melt-down since the 1930's, with no end in sight. Some events in *The Angel* are based directly upon history. For instance, Germany's economic distress during the Great Depression is one factor contributing to the rise of Adolf Hitler. Could a totalitarian government arise from our current conditions? *The Angel's* world is just a heartbeat from our own. I want to entertain my readers and challenge them to discover solutions."

A good book elicits an emotional response while being read; Nathan's book haunts the reader long after the final page is turned. In *Angel & the Brown-Eyed Boy* two dying worlds fight for survival, their futures dependent on a revolutionary and an angelic otherworldly dancer. **Todd A. Fonseca, award-winning author of *The Time Cavern***

The Angel and the Brown-eyed Boy is the most engaging story of an intergalactic traveler and an angry young man, both of whom have surprising hidden aspects that are not fully revealed until the very end of this enticing saga. If you like science fiction, you're going to love *The Angel & the Brown-eyed Boy!* **Ilene Dillon MSW, host Full Power Living**
